TECH SERVICES DOCUMENT

Material Safety Data Sheet (MSDS) For Frontline® Fabrics.

Rev. (11/15)

All Frontline fabrics are considered non-hazardous as defined in the Code of Federal Regulations, Title 29, Chapter XVII, Part 1910, Subpart 2, Paragraph (b)(5). The OSHA Hazard Communication Program does not apply to (iv) Articles: A manufactured item which: (i) is formed to a specific shape or design during manufacture; (ii) has end use functions dependent in whole or in part upon its shape and design during end use; and (iii) does not release, or otherwise result in exposure to a hazardous chemical under normal conditions of use. Therefore, the program does not apply to Frontline fabrics as an article.

Warning: This information is based on technical data that Kappler believes to be reliable. It is subject to revision as additional knowledge and experience are gained. The website will contain Kappler's most up to date product information, and customers who receive pamphlets, brochures or other literature should be aware that such "hard copy" information may not be as current as the information on Kappler's website. Customers should also recognize that there are uses, environments and chemicals for which Kappler products, garments and/or fabrics are unsuitable. It is the responsibility of the user to review available data and verify that standards. Also, the customer should review all available information on the website to understand the uses- and limitations- on ALL products, garments and fabrics which Kappler makes available.

CAUTION: Do not use for fire protection. Avoid open flame or intense heat.
